## ESG COMMITMENT

Relationship Properties Private Limited (RPPL) recognizes that development, construction, management and investment in real estate impacts our stakeholders and the communities in which we operate. In recognition of these impacts, RPPL will develop ESG strategy as per UN Sustainable Development Goals and will maintain policies and procedures to mitigate negative environmental effects, engage stakeholders, and enhance investment performance.

## COMMITMENT

- Comply with the applicable environmental laws, regulations, legislation and implement industry best practices
- Advance RPPL ESG performance and excellence through innovative practices that reduce the properties' impact on the environment. This includes conservation of natural resources, energy, water, waste minimization, enhancing health and safety and community engagement
- Communicate the RPPL ESG commitment to employees, contractors, and other stakeholders
- Encourage RPPL contractors to employ sustainable practices and incorporate these requirements into contracts as appropriate
- Evaluate and report RPPL ESG performance and progress.
- Leverage RPPL Website as the platform to communicate ESG performance and objectives in in Annual Reports
